## Welcome Aboard!

Welcome to our 2020 New Products Supplement listing more than 100 new lines that we have launched this year. Keep it with your 2019 Nauticalia Marine Trade Catalogue for our full range of practical boating accessories, clothing, and gifts.

### Easy-start Syphon Pump

When syphoning liquids from one container to another, particularly toxic or unpleasant ones, the difficult part is generating the suction necessary to start the flow. This simple, lightweight hand-operated pump will do the job for you in seconds, with no batteries, and deliver up to 12 litres per minute. It's suitable for water, fuel, paraffin, cleaning products, and chemicals (except corrosive chemicals). The rigid inlet pipe, which can be poked through narrow hatches and fuel cans, is 40cm long and the flexible outlet is 60cm long.

**New!** 3279 Syphon Hand Pump

### No More Unsightly Coils of Hosepipe to Trip Over

The ingenious Hercul-Easy hose solves the problem of how to store your hosepipe neatly when not in use. Within seconds of you turning off the tap, it cleverly contracts to 1/3 of its length. It's light and supple too, so easily tucked away into a cupboard, bucket, or even a plant pot. Its universal fittings are compatible with all standard outside taps and almost any hose accessory, and it doesn't kink or tangle like other hoses can.

- Never tangles or kinks
- Expands up to 3 times the original length
- Lightweight, compact and portable design

**New!** 6410 Expandable Hose, blue, 25ft (7.5m)

**New!** 6411 Expandable Hose, blue, 50ft (15m)

**New!** 6412 Expandable Hose, blue, 75ft (22.5m)

**New!** 6413 Expandable Hose, blue, 100ft (30m)

Includes 7-way multi spray gun, wall hanger and 1/2" and 3/4" tap connectors.

### Recycled Ocean Plastic Muggi Mug Holder

The Ergonomically-designed, Non-slip Drinks Carrier. Made entirely from recycled plastic waste removed from the world's oceans. It's the 'greenest' Muggi ever!

**Coast Torches**

Coast are renowned for their superb quality torches at great value prices. These two new products are no exception – we are delighted to introduce a lightweight plastic version of their cornerstone HP7 torch, and a rechargeable head torch both priced keenly for impulse buy sales. Supplied in display packs of 6 – just open the box and start selling!

**Coast HP7-XDL Torch Display Pack of 6**

The HP7 torch is the cornerstone of the Coast range - offering high power in a comfortable, compact size. This new version packs all that performance into a lightweight plastic body which offers a substantial cost saving as well as weight. The HP7-XDL produces a super-bright white 240 lumen beam which can be focussed from spot to flood with one hand. Even the low setting of 70 lumens is very bright and extends battery life to 17 hours. Uses 3xAAA batteries (supplied) and comes with the same 5-year warranty as its aluminium counterpart. Supplied as a counter-top display unit of 6 torches, each in 'try me' clear packaging.

**Coast Rechargeable Head Torch Display Pack of 6**

Coast's FL13R is an incredibly good value rechargeable lightweight head torch. A special COB LED produces a general broad beam with high (270 lumens), low (85 lumens), red (to preserve your night vision), and flashing red (emergency) settings. The beam angle can be adjusted for close up or distance use, and it is fully rechargeable via USB lead (supplied) providing 5-10 hours use per charge. 5-year warranty. Supplied as a counter-top display unit of 6 torches, each in 'try me' clear packaging, with optional hard hat clips.

## Coast Multi Tools

We're delighted to introduce a superb range of multi tools from LED torch experts Coast. As we have come to expect from Coast, they're all incredibly well made, from high grade materials, and offered at good value price points. Unusually, LED illumination is built into the handle of each to help when working in awkward dark spots. They come supplied in well thought-out retail packaging, with each model available gift boxed or in clear 'try me' hanging packs.

Choice of packaging does not affect price.

## Coast Compact LED Multi Tools

We love these little multi-tools from American brand Coast - not only does each contain 14 useful tools (knife, spring-loaded pliers, screwdrivers, bottle opener, wire stripper, etc.), but built into the handle is an LED to illuminate the job in hand. They're very well made, from stainless steel and, unlike some we've tried, the handles are comfortable in use and have non-slip rubber grips. And when you've finished, they fold to a perfectly pocket-sized 8cm long. Lifetime warranty.

## Coast LED Multi Tools

Like many multi-tools on the market these days, these offer a variety of handy functions - knife, spring-loaded pliers, screwdrivers, bottle opener, wire stripper, etc. - 15 in all. However, what really sets them apart is an LED light built into the handle to illuminate the job in hand. They're very well made, from stainless steel and, unlike some we've tried, the handles are comfortable in use and have non-slip rubber grips. Supplied with a black carry case, they measure 16cm in use, 10cm folded. Lifetime warranty.

**Coast Pro LED Multi Tools**

The Pro versions of Coast's multi-tool contain 13 useful functions - spring-loaded pliers, screwdrivers, bottle opener, scissors, wire stripper etc - plus a strong locking serrated knife blade. Uniquely, they also have two LED lights built into the handle to illuminate the job in hand - one for the knife and one for the pliers. They're very well made, from stainless steel and, unlike some we've tried, the handles are comfortable in use and have non-slip rubber grips. Supplied with a black carry case, they measure 16cm in use, 10cm folded. Lifetime warranty.

## Versatile OctoGrip™ Gloves

Antifouling, grinding, lifting, fibre glassing, carpentry, rope work, engineering... Many jobs call for hand protection, but most protective gloves on the market are cheaply made and poorly fitting - making it difficult to grip things safely or work comfortably all day. The American-designed OctoGrip™ range are in a different league – snug fitting, they're comfortable and highly dextrous, meaning you can use them for a variety of tasks. They also feature highly grippy textured palm coatings to ensure a secure grip on your work, wet or dry, yet so tactile you can even write with them on. A choice of five versions are available, to suit your customers' specific needs. All are tough and long lasting, lightweight, and breathable, and are supplied on smart Euroslot header cards.

## Sell More Gloves!

You will sell more OctoGrip gloves when you are able to fully explain their benefits, and demonstrate why they are far superior to other gloves on the market. These smart display stands incorporate a video to explain the range, uses, and features, and will help you sell them. They're FREE when you buy the stock – either select your own range, or opt for one of our easy starter packs.

## Wooden Bunting

Unusually, the flags on these bunting sets are made, not from fabric, but thin plywood board and painted with nautical designs. This gives them a crisp finish and suits long-term use. Suitable for indoors and outdoors, although they will fade over time if left outdoors.

**Prices - please note:** At the time of printing (January 2020) the uncertainties of BREXIT were heightened and many of the issues particularly around international trade remained unresolved. We intend the prices printed to be valid throughout 2020, and we have taken steps to try and protect our cost prices and exchange rates in order to achieve this. However, we reserve the right to make price changes should the need arise during the life of the catalogue, and we will let you know when you order should this be necessary. Our website will reflect the correct price at the time of order.

### Saint30 Rechargeable Search Light

The Saint30 is a serious piece of kit. From a 'bomb-proof' engineered aluminium casing, three high-spec LEDs pump out an incredible 5600 lumen, 480m beam – this is military or search & rescue grade equipment. Be careful where you point it! Rechargeable by mains or USB, you can expect 2.5 hours service at full power and up to 60 hours on its lowest setting (at 105 lumens; even this is bright!). Once charged, it also acts as a 14.8v power bank for keeping your phone or tablet topped up on the move. Adding even more to the list of features, it comes supplied in a corduroy case with charging cables and shoulder strap, and has a 5-year warranty. Waterproof to 1m. Measures 20cm long.

### 5480 NexTorch Saint30 Rechargeable 5600 Lumen Torch

### NexTorch Clip Light

Clip this little torch – just 5cm wide – onto the peak of a cap, backpack straps, clothing, tent, etc, and it will provide convenient hands-free illumination that you can point just where you need it. Powered by 2xAAA batteries (supplied), it will run in high (70 lumen) mode for 4.5 hours, or low (7 lumen) mode for up to 44 hours, and also offers a flashing SOS mode in case of emergency.

**5483 Compact Multi Purpose Clip Light**

### Hands-free Lighting Just Where You Need It

Clip, hang, stand, strap... even magnet this lantern pretty much anywhere you need reliable hands-free 360-degree illumination. It's no bigger than your thumb, but it will offer up to 30 hours of bright white light using just one AA battery, with a choice of high (70 lumen) and low (10 lumen) settings. Supplied with battery, clip, and cord.

**5481 360Degree Pocket Lantern**

**5482 Merchandiser for 5481 360Degree Pocket Lantern.** FREE display stand available when you stock in full – please call us for details.

## NexTool TaoTool

The recessed blade on this keyring tool makes short work of rope, webbing, or packing tape, and folds neatly out of the way for safe storage on your keyring – locking open just when you need it. Measures 11cm open, 7cm closed.

**5485 Rope Cutter/Rescue Key**

## NexTool TaoBar

At only 6cm long when folded, you'll barely notice this little tool on your keyring, but when you need a knife, rope/webbing/box cutter, bottle opener, or nail lifter/pry bar, it'll be the first thing you reach for. Supplied with free S-Biner clip.

**5484 Rope Cutter/Rescue Knife/S-Biner**

## Captain Gulp

Captain Gulp is a metal keyring packed with handy functions – rope/box cutter, bottle opener, screwdriver... Unusually, he will also clip to the side of your smartphone or tablet, holding it at just the right angle for hands-free viewing. Measures 6.5cm long.

**5486 "Captain Gulp" 10-in-1 Multi Tool**

## NexTool Com2Eat

It's a spoon, a fork ('spork', anyone?), a bottle opener, and screwdriver – just what you need to survive in the great outdoors (well, it'll see you through dinner in an emergency at least!). Just 7cm long and supplied with S-Biner clip for your keyring.

**5487 Spork "com2eat" Tool**

## NexTool Keyring Tools

It's astonishing how many functions NexTool have packed into these quirky, but really useful, keyring tools – spanners, screwdrivers, bottle openers, rope cutters... Supplied with free S-Biner clips, they make a perfect impulse buy add-on sale.

**Coast HP7R Rechargeable Torch**

Coast's rechargeable HP7R torch offers high, low, and strobe modes, and fingertip flood-to-spot focusing, which can be locked, and it can be recharged by numerous different means to suit your circumstances. The incredibly well thought-out (and beautifully-boxed) pack contains: Torch (featuring 'Pure Beam' LEDs and 'bomb-proof' aluminium construction, naturally), two lithium-ion power cells that can be recharged either within the torch, or independently so that you can have one on charge whilst using the other. A 4xAAA battery cartridge to provide a backup if you just can't charge, or wait to charge. Leads and adaptors for mains, 12V, and USB charging. Wall-mounting bracket. Heavy duty black nylon sheath. On a full charge, the 300 lumen beam will shine more than 352m for around 7hrs, or around 1:45hrs if the 4xAAA battery cartridge is used. Length 14cm. Weight 204g.

5763 Coast HP7R 'Flexcharge' Torch

**Coast G50 Torch**

The G50 was designed to pack a lot of power into a very small case – it's only 12cm long, so easily fits into a pocket, but projects a bright 355 lumen beam over 168m. A simple twist focus switches from flood to spot light, and the 4xAAA batteries (included) will power it for around 7 hours on low power.

## Coast HP314 Ultra-distance Torch

The most powerful torch in our Coast range with optics specially optimised for distance use – at full power (1060 lumens) it will throw a pure white beam with no blemishes, rings, or dark spots almost half a mile, which you can focus from flood to spot light with a fingertip. Even its more economical setting (150 lumens) will reach 261m, and do so for up to 92hrs, and it features a strobe mode for emergencies. Packed in a rugged case, with a shoulder strap and 5 year warranty. If you need an incredibly bright light and ultimate reliability, try this – you will be amazed! Uses 4xD batteries (included). Length 43cm, head diameter 8cm.

**5761 Coast Ultra-distance HP314 Torch**

*Includes custom-designed EVA carrying case*

## Coast HP14 Plus Torch

Maximum lighting power of 580 lumen, pure white beam that reaches out to an incredible 233m and can be focussed from flood to spot with fingertip control. The existing low power setting has been complemented by a new medium power option for greater flexibility. Includes 4xAAA batteries and heavy-duty sheath. Length 21cm.

**5768 Coast HP14 Plus Torch**

## Coast EAL12 LED Lantern

This feature-packed little lantern is a handy 15cm tall and offers up to 4 nights (38hrs) illumination on one set of 4xAAA batteries. You also get a higher level of illumination (168 lumens), a static red light to preserve your night vision, and a flashing red light for emergencies. At only 312g including batteries, it's ideal for camping, or as a back up or emergency lantern.

**5770 Coast EAL12 LED Lantern**

## Coast EAL17 LED Lantern

On its low-intensity setting (which we've found to be perfectly bright enough for most uses), Coast's EAL17 lantern provides up to 6 nights (50hrs) use on one set of 4xD batteries. When you need more power, the high-intensity setting offers 460 lumens, and there are options for static red and flashing red light too. Measures 26cm tall.

**5771 Coast EAL17 LED Lantern**

**Coast FL75 Focusing Head Torch**

The FL75 headtorch packs a lot of features into its tough, weather-resistant case - high/medium/low modes adjust the bright white beam from 53 to 405 lumens, fingertip focusing tightens the beam from flood to spot light, and switching to the red LED preserves your night vision. For safety, reflective fibres are woven into the strap, ensuring you can see and be seen at night. Uses 3xAAA batteries, offering up to 21 hours of run time on low setting.

**5783 Coast FL75 Focusing Headtorch**

**High-intensity Head Torch**

When you need to work hands-free, this head torch offers a powerful 145 lumen white floodlight, and a red LED spotlight to preserve your night vision. Uses 3xAAA batteries (supplied) which last up to 4hrs.

## Schatz Royal Range Marine Instruments

Schatz, founded in 1881, are the world's leading manufacturer of classic ships' clocks, barometers and associated instruments. They are particularly renowned for their eight-day mechanical chiming movements, and have supplied both commercial and naval fleets for many years. Cases are a combination of machined solid brass castings, pressings and spinnings, heavily stove-lacquered for a lasting finish. The white faces, with black hands and Roman numerals, are viewed through a substantial glass opening port with a brass cleat fixing. This allows access to the movements for winding, battery changeover or adjustment without removal from the bulkhead.

### Schatz Royal Range

Top of the range instruments, at home in the saloons and staterooms of the world's super-yachts. Dial 13cm, case diameter 18cm, depth 9cm.

#### 5020 Schatz Royal Mariner Mechanical Clock.

Two eight-day mechanical movements: one for the clock; and one for the chimes to mark the time-honoured "Ship's Bells" naval watch system - four hours on, four hours off. Supplied with a steel key for winding.

**5021 Schatz Royal Ocean Clock.** An electronic version of the Royal Mariner, powered by one AA battery that keeps the quartz clock and Ships' Bells striking movements running for a year.

**5023 Schatz Royal Ocean Barometer/Thermometer.** Calibrated in millibars and millimetres. The lower half of the dial has a thermometer that measures in Celsius and Fahrenheit.

#### 5016 Schatz Royal Ocean Tide Clock

### Schatz Midi Range

Specifically aimed at smaller vessels, where the Royal range would look oversized in relation to other cabin furnishings, but where top quality is still required. Case diameter 16cm, clock face diameter 10cm, depth 7cm.

**5030 Midi Mariner clock, brass, mechanical.** A smaller version of Royal Mariner (5020, above) - Ship's Bell chiming clock with mechanical movement.

**5031 Midi Ocean clock, brass, quartz.** Smaller version of Royal Ocean (5021, above). Uses one AA battery.

### About the "Ships' Bells" Watchkeeping System

Timekeeping has always been essential on board ships, both for navigation and to ensure that the crew are adequately rested. Before the invention of reliable clocks, it was kept by striking a bell in conjunction with the cycles of a half-hour sand glass. The day was divided into four hour watches, each further subdivided into eight half hour periods. At the passing of each half hour the bell was struck the corresponding number of times: once after the first, twice after the second, and so on. At the sounding of "eight bells" the watch was completed, the crew changed over and the process would start again. The Schatz Mariner and Ocean ranges have movements that can chime this pattern.

## The Brass Instruments for which Nauticalia is Renowned

Our porthole instruments have hefty solid cast brass casings, hinged scuttle clamps, bevelled glass fronts and our trademark brass hands and black subsidiary indicators on light cream faces. The movements are good quality – battery-operated quartz for the clocks and silvered aneroid for the barometers. They are polished to the highest standards, then to protect this high lustre finish, they are ultrasonically cleaned to remove any impurities, spray lacquered then stove baked to harden the lacquer and give maximum protection. They offer excellent quality at medium-range prices. Clocks (except Tide clock) have bold Roman numerals. Barometers show millibars and inches of mercury. Clocks use one AA battery.

### Saloon Range Instruments - 23cm Diameter

Intended for the main bulkhead of larger yachts, making an eye-catching feature. Flange diameter 23cm, dial 14cm, depth 6cm.

**7100 Brass Saloon Barometer**

**7101 Brass Saloon Clock**

**7107 Fleet Commander Clock.** Clock, barometer, thermometer and hygrometer in a smart, space-saving unit for the saloon or study.

**7120 Brass Saloon Tide Clock**

### Bridge Range Instruments - 18cm Diameter

The heavy cast brass cases of our 'Bridge' instruments measure 18cm across (dial diameter 11cm), with a depth of 6cm, making them particularly suited to a large yacht's bridge or the saloon of a mid-range vessel, and are also available chrome plated for those seeking a more contemporary look.

# Tarnish-free Marine Instruments

## Tarnish-free Marine Instruments in Brass or Chrome

Our ranges of super durable, tarnish-free instruments have been finished with a protective coating using advanced surface treatment technology. This coating, far superior to lacquers and varnishes, can withstand more than 720 hours (the longest test period for this process) under NSS (Neutral Sea Salt) laboratory testing. NSS testing is a certificated and standardised test method used to check corrosion resistance of coatings on metals such as brass, zinc and steel. It is an accelerated corrosion test that produces a corrosive attack on the product coating from which the results can predict its suitability for use as a protective finish. These instruments will resist tarnishing even when exposed to the harsh marine environment for extended periods.

## QuickFix System

This unique QuickFix system allows the instrument to be locked hard to a bulkhead or wall but removed, in seconds, by hand. The instrument is supplied with a base plate which is screwed to the wall or bulkhead (instructions and drill hole template included). The instrument then simply slots over the base plate and with a gentle twist, is locked on. A reverse twist removes it again. This makes changing batteries easy, removal for

storage easy, and avoids the tricky job of not scratching your polished case when screwing the instrument to the wall! QuickFix can also act to seal the instrument mechanism making it waterproof. In underwater tests, clocks fitted with the QuickFix waterproof system worked continuously at a depth of 300mm for more than 3 months. Note: barometers with the QuickFix system do not have the full waterproof system as these instruments need exposure to air pressure in order to operate.

### Radio Silence Zones

Tragically, the radio-signalling equipment carried by *RMS Titanic* was of little use, since the distress signals sent after hitting an iceberg in 1912 went unheard for several hours. The disaster spurred an international review of maritime safety which made several recommendations, one of which led to the introduction of radio silence periods. These are three-minute periods immediately following each quarter hour reserved exclusively for making, and listening for, distress calls. The green sectors represent silence periods on the SSB (Single Side Band) distress frequency of 2182kHz, as carried by commercial and some pleasure craft. The red sectors are for Morse code distress signals on the 500kHz band, as used in radio telegraphy. Radio room clocks have traditionally been marked with the sectors as guidance for the operators.

# Sound Signals

## Bosun's Calls - as supplied to the World's Navies

In the days of sail, orders aboard ship were given on the Call, whose high-pitched whistle could be heard above the strongest wind. It is seldom used to transmit orders today, but tradition is kept alive by many of the world's navies, who use Calls on ceremonial occasions.

Actual size

### Engraving Service

We engrave Calls using a classic script on the keel. Popular messages include the owner's name, boat name, service number or a short message. Maximum two lines on each side, each up to 18 letters and spaces per line (capitals count as two letters).

### Nickel-plated Call

Our Regulation Call, of nickel-plated brass and copper, is supplied for navies and training cadets worldwide. The Call is 12cm long and weighs approximately 28g. Chain not supplied.

# Brass & Chrome Bells

## Nauticalia Ships' Bells

Nauticalia has been world renowned for its Ships' Bells for over 40 years supplying a broad range of customers from shipping companies and world navies, sports clubs, pubs and restaurants through to pleasure boaters and homeowners. Many are engraved with names of ships, companies and homes.

### Ships' Bells

Made of high quality solid brass these heavyweight sandcast bells have a deep resonant tone and can be heard over long distances. Ideal for marine use, commercial warning bells, workplace/school bells and a wide range of domestic uses.

## Bell Engraving

We specialise in deep-cut engraving on bells. It is usual to engrave in plain capitals with the craft's name, port and date on the side opposite the bracket. We charge a standard fixed rate per letter or number. On 4-5" bells the lettering is approximately 9mm high and on 6-8" bells 2cm high, but this may vary with the length of words. We can quote for ornate lettering, for longer engravings and also for logos and motifs.

# Traditional Lamps

## Miner's Lamp

The miner's safety lamp was designed by the mining engineering genius Sir Humphrey Davy, to withstand handling in arduous conditions. Sailors too have found their virtues invaluable: they are wind resistant and have quarter-inch (5mm) glass. Though illumination is limited, it is an ideal night light on boats which must conserve battery power. Measures 24cm tall. Polished brass and copper construction. Burn time 8hrs. Uses 4mm round wick oil burner (See below).

- 4120 Miner's Lamp, 24cm
- 8205 4mm Round Wick for Oil Lamps, 25cm

Working oil burner

## Brass 'Chief' Cargo Lamp

A sturdy brass lamp that was, for years, the only approved lantern for use in cargo holds. It offers all-round illumination, with convenient fittings for suspending from ropes or wall brackets. Uses 12mm single wick oil burners (See below). Also suitable for tealights by removing burner unit.

- 4059 Chief Cargo Oil Lamp, brass, 38cm

## Anchor Lamp

The Nauticalia anchor lamp - traditionally hung from the mast and able to burn all night to warn other vessels whilst at anchor - are made to the style still used by some international shipping as a reserve in case of electrical failure. They have dioptric lenses and the handles at top and bottom incorporate a rope fixing ring. Available in two versions - one with an oil burner, and one with an electric conversion (requires bulb with E27 fitting) supplied with a UK plug.

- 4145 Brass/Copper Anchor Lamp, oil, 29cm
- 4146 Brass/Copper Anchor Lamp, electric, 29cm

## Brass 'Nelson' Electric Lamp

The Nelson Lamp is made from brass, with a clear glass globe that takes its design from the dioptric lenses used on traditional oil-fuelled anchor lamps. Our electric version requires a E27 fitting bulb (max 25W) and is supplied with a UK plug.

- 4064 Nelson Lamp, brass, 33cm

## Square Cargo Lamp

A sturdy brass lamp that was, for years, the only approved lantern for use in cargo holds. It offers all-round illumination, with convenient fittings for suspending from ropes or wall brackets. Uses 12mm single wick oil burner. Also suitable for tealights by removing burner unit.

- 4106 Brass Cargo Lamp, 25cm

- 8204 12mm Flat Wick for Oil Lamps, 25cm

## Navigation Lamps

Although not suitable for marine use, these replica ships' navigation lamps are functional. They are sturdily constructed in brass then anodised for an antique effect, with dioptric lenses and wall mounting brackets.

**4068 Port Navigation Electric Lamp, brass, 21cm.** Requires bulb with E27 fitting.

**4069 Starboard Navigation Electric Lamp, brass, 21cm.** Requires bulb with E27 fitting.

## Leatherette-bound Pocket Telescope

Tooled in spun brass and lacquered for lasting protection. The four drawers extend from 14cm closed to 33cm with x25 magnification and 30mm diameter object lens. Bound in hand-stitched leatherette.

**7160 Brass Pocket Telescope.** (Supplied in a zipped carrying case).

## Bubble Clinometer

Brass-cased bubble clinometer with three mounting holes for fixing to a bulkhead. Diameter 11cm.

**5062 Bubble Clinometer**

## Storm Lighter

Originally made by soldiers in the trenches in World War I from spent bullet cases, seafarers adopted this practical brass petrol lighter. The sliding stormguard shields the flame, even in a strong wind. When lowered it operates a snuffer extinguishing the flame and protecting the wick from spray. With positive flint control. 8cm long.

**4600 Storm Lighter**

## Brass Hurricane Lamp – Ideal for Marine Use

The Hurricane lamp has long been popular with seafarers for its robust construction, steady flame and excellent safety features. They make superb camping lights, providing welcome security and comfort on the darkest of nights. The only problem with the original Hurricane lamps, which were mainly used ashore, was that the tin-plate construction was prone to rapid corrosion in the salty marine environment. To counteract this we have produced a solid brass version, still made to the original design, which will outlast a tin-plate version many times over. Measures 26x11cm, and holds 210ml of oil – providing around 11 hours burn time.

**4119 Brass Hurricane Oil Lamp, 26cm**

*CLEVER DESIGN!  
Air intake surrounding, but separate from, chimney supplies warm, dry air to burner - giving a hotter, steadier and more efficient flame.*

**4078 Hurricane Tealight Lamp, 18cm.**  
Iron with rust effect-finish.

## Fastnet Gimballed Lamp

Our unique polished oil lamp has earned the respect of serious sailors because of its highly sensitive gimbal mechanism which ensures that it remains upright even in turbulent seas. A special safety feature is the heat-shield, which gimbals with the lamp. Maximum heeling angle for gimbal: pitch 30 degrees, roll unlimited. The lamp is also fitted with a carrying handle so that it can be lifted clear of the frame for portable use. Fitted with a hinged burner and 3cm wick for effective light. Height including heat-shield 32cm. Capacity 300ml sufficient for 12 hours burning.

**4122 Oil Lamp - Gipsy Moth (gimballed), brass, 25cm**

**4123 Heatshield for Gipsy Moth lamp, brass.** Diameter 11cm. Max projection 20cm. Adjustable.

**8103 Chimney for 4101 & 4122.** (fits both lamps).

## Gipsy Moth Gimballed Lamp

These compact oil lamps were designed for small sailing boats, where every inch of space is precious and battery power is at a premium. Named as a tribute to that pioneer of small-boat sailing, Sir Francis Chichester, it is made in solid brass, fully gimballed and heavily weighted for maximum safety. Its 3cm wick hinge burner gives unsurpassed light for its size. Height (including chimney) 26cm. Projection 16cm. Capacity 189ml. Weight empty 900g. Burning time eight hours.

## Feature Lighting

There's a distinctly 'industrial' feel to this range of lighting. Inspired by big ships, port warehouses, and naval dockyards, these are substantial pieces that will become a focal point and transform their settings. All are mains-powered with solid aluminium casings. CE compliant. Floor/desk lamps have UK plugs.

### Dockyard Wall Lamp

With a polished nickel-plated case and a clear lens, this is the sort of style you can imagine illuminating harbours and quaysides at the turn of the (last) century. Projects 30cm from wall. Requires E27 bulb.

**4079 Dockyard Wall Lamp, nickel**

### Dockyard Wall Spotlamp

Wall-mounted, with a polished nickel-plated case that can be adjusted to direct illumination where required. The clear lens is secured with a chunky porthole-style closure. Projects 30cm from wall. Requires E14 bulb.

## Digital Compass/Barometer/Altimeter

This feature-packed little instrument fits easily into a pocket so you'll always have easy access to: Digital Compass, Altimeter, Barometer with weather forecasting function, Time, Date, and Alarm. Backlit LED screen.

**3152 Digital Compass/Barometer/Altimeter**

**3151 Mini Weather Stations - Display Pack of 12**

## Mini Weather Stations - Display Pack of 12

These great-value digital weather stations make super impulse-buy lines, so are supplied as a mixed pack of 12 in a counter-top merchandiser. Packed with almost as many features as instruments several times the price, including: Time and Date, Weather Forecast, Indoor Temperature and Humidity, Alarm Clock. Uses 2xAAA batteries (not included). This product is sold as an assorted pack of 12 and must be ordered in multiples of 12. Priced per item.

## Weather Girl Thermometer

You'll be in no doubt about the forecast for the coming day - "Weather Girl" dresses (and undresses!) to show you what to expect with five icons from bikini to coat and scarf. Features include displaying current indoor and outdoor temperatures (C/F), storing maximum and minimum temperature records and 12 or 24 hour time display. The base station receives signals from the separate outdoor sensor (transmitting data up to 300ft), and can be displayed free standing or wall mounted. 16x8x4cm.

**3171 Weather Girl Thermometer**

## Handheld Windspeed Indicator

For sailors, walkers, or amateur meteorologists, this pocket-sized digital instrument offers accurate wind speed, temperature, and windchill information at a glance. It's very quick and simple to use, water resistant, and includes a back-lit LCD screen for night-time use. Uses one CR2032 battery (included). Measures 10x4cm.

**3156 Anemometer, digital**

## Pocket Monocular

Monoculars are a popular choice for those who find binoculars uncomfortable or difficult to use as, for a given magnification, they're smaller and much lighter. This one has a tough rubber casing and can be focussed with one hand, even whilst wearing gloves (ideal if you need a free hand to hold on to the ship!). 10x magnification and a 30mm object lens offer a bright, crisp image. Supplied with lens cap and carry case. 13cm long.

## Military Lighter

This tough, powerful lighter has been tested at altitudes of up to 10,000ft and has a heat output of 1300°C - enough to cut aluminium drink cans in half! Its pressurised jet resists wind buffeting to give a reliable flame that keeps pointing in the direction you aim it - even upside down - making it an excellent tool for lighting fires/barbecues, sealing rope ends, or lighting a pipe on a blustery day at sea. Refillable. New, unused military surplus. Colour may be green or black.

## Multi-purpose V-Pump Powered by Water

The V-pump exploits the extraordinary Venturi effect to help you empty water from your pond, pool, bilges, or dinghy, using only pumped water as its power source - no batteries, no mains power, no moving parts. As water from your garden or boatyard hose (or pressure washer, for greater effect) travels into the pump and through the immersed nozzle, it is forced to speed up, which creates a vacuum - drawing in water that surrounds the nozzle. In fact, it sucks around four times as much water in as is fed into the pump. With a typical garden hose, you can expect to pump around 4,500L (1,200 gal) per hour - enough to empty a standard pond or hot tub in less than 30mins. Supplied with standard UK 'Hozelock-compatible' connectors.

## Sea-Searcher Recovery Magnet

Developed by Nauticalia to retrieve tools and ferrous equipment lost overboard from boats and docks, this powerful pocket-size - 10x8cm - recovery magnet is invaluable for boating, diving, angling, treasure-hunting, engineering and on oil rigs. With an unlimited life, the Sea-Searcher can lift up to 140-lb (64kg). It has become standard issue for many harbour and river authorities, as well as for police and army search units worldwide. Power comes from a ceramic block, charged at 30,000 amps sandwiched between steel plates protected by cadmium.

3116 Windowpane Thermometer

## A Clear View of the Weather

This thermometer uses suction to hold it onto the exterior of a window to monitor conditions outside. It has large digits that can be read from right across a room, but are printed on clear vinyl backgrounds to minimise their intrusion on the view. The main temperature scale is in centigrade with smaller markings in Fahrenheit. Diameter 18cm.

## Flexible Spirit Level - Works Around Curves and Corners

Developed, designed and manufactured in Germany with an almost obsessional degree of accuracy, it's essentially a 70cm spirit level with six precisely engineered joints. So it can be used through right angles, curves, corners, as well as around columns and decorative features. Made from high-density, non-marking polymer with a magnetic base and unbreakable, adjustable acrylic vials. Unlike others it can fold to fit better in a tool bag. Whether you're a DIY novice or a fully qualified professional, this is a tool kit essential. 70cm long.

## Portable Food Smoker

Once you start using a "fish smoker", you will very quickly become addicted to this easy, portable, quick and delicious way of cooking – perfect for the riverbank, beach or boat. Light the two meths burners, sprinkle some sawdust on the base of the smoker, add your food and put the lid on. That's it. There's room for two 3-lb trout, which would take about 15 minutes to cook through. Steak and other meats taste great cooked this way too. Our model is stainless steel, so resists corrosion much better than cheaper imitations. For transport, all the components stow inside the main compartment, measuring approx 35x28x10cm. Includes two bags of oak smoking dust.

## The Revolutionary Cobb Outdoor Cooking System

The "Cobb" is probably the ultimate portable outdoor cooking system, and certainly much more than "just a barbecue".

### Cobb Features:

- Stays **Cool-to-the-touch** on the outside. So it can be used on a wooden table, fibreglass deck, or your lawn without causing damage.
- **Doesn't smoke** - food is isolated from the charcoal, so fat does not drip onto it and flare.
- Can be used as a **Charcoal oven** - delicious pizza cooked in just 15 minutes!
- Only needs six briquettes to **Cook for up to 3½ hours** or one Cobblestone (see below) burns for 2½hrs - maximum heat from minimum fuel.

### Cobb Ultra Quick Briquettes

Cobblestones are specially shaped to fill the fuel compartment of your Cobb barbecues, and formulated to burn hotter and longer than charcoal of the same size/weight. They are environment-friendly too, being made from coconut shells. Each stone burns for up to 2hrs (smoke-free after the first three minutes), with very little residue. They are individually plastic-wrapped, so won't absorb moisture if you keep them in a soggy locker and nor will they turn everything black. After 4-5 minutes of ignition product is smoke free and ready to cook.

### The Non-Slip, Safe Drinks Carrier

Unlike most trays, this ingenious design holds your mugs, glasses, or bottles securely in four moulded slots, and its rubber feet won't slip when you put it down. Originally conceived for use when sailing in rough seas, it's lighter and much easier to carry in one hand than a tray (vital when you need your other hand free to hold on!), and safer than carrying hot cups individually. If you're not a round-the-world yachtsman, it's equally useful in the garden, workshop, caravan, or campsite. The non-absorbent material is durable, easy to clean, and insulates to keep your drinks warmer (or cooler) for longer.

## Gecko Non-Slip Dashboard Pad

Inspired by the seemingly-miraculous way Geckos climb effortlessly on even smooth surfaces, these little patches of silicone adhere to dashboards and worktops etc to hold phones, sat-navs, sunglasses and other small items in place. We don't know how it works, but it does so amazingly well. It's not sticky to the touch, doesn't leave a residue, and is endlessly-repositionable. If they get grubby or attract dust, a quick wash revitalises them. We recommend displaying them on the custom-made merchandiser (FREE when you stock in full) so that your customers can try its sticking power for themselves. Each measures 9x15cm.

## Brilliant Buckets Fold Flat for Easy Storage

We don't need to tell you how useful a bucket can be, and you'll also know what a nuisance they are to store - especially on board a boat or caravan, where they tend to get filled up with other stuff. Not this one! In use, it has a capacity of 11-litres and is 28cm tall, but folded up in its storage bag measures just 4cm thick. The outward pressure of the contents, plus sturdy plastic rings at the top and bottom, keep the sides stable.

## StayPut Non-Slip Matting Products

The range of uses for non-slip matting aboard boats, caravans, and in kitchens and workshops is huge, and these items are amongst our top sellers. The fabric is made from non-slip foam which is melded onto a polyester mesh. The unique manufacturing process produces a hardwearing fabric which is not sticky or stretchy, but grips on both sides. It is durable, with an attractive open-weave structure that allows air to circulate - perfect for marine environments. It is washable, easily cut to shape, and available in a range of colours.

## Multi-purpose Non-slip Matting

Available in ten colours, these rolls of StayPut non-slip matting are simple to cut and sew, so can be used in an enormous variety of applications. Rolls are supplied in convenient 30x182cm or 51x182cm sizes, or bulk (30cmx55m) rolls that are easy to cut and sell by the metre. Codes for each size and colour are shown in the table below.

**Fabric Rolls 30x182cm.**

**Fabric Rolls 51x182cm.**

**Bulk Rolls 30cmx30m.**

## Placemats and Coasters

Using the same StayPut fabric as the multi-purpose rolls (above), the placemats are pre-cut rectangles with rounded corners. At 30x40cm, they are ideally-sized for protecting tabletops, and preventing items slipping on trays or dashboards. Placemats are sold individually, or in sets of six placemats and six 10cm circular coasters. Codes for each type and colour are shown in the table below.

## Twister Grips

Similar to the coasters in the sets above, these are 14cm discs of StayPut non-slip matting. They are supplied in packs of 4 and give you the extra grip necessary for getting stubborn tops off jars and bottles. Black only. Pack of 4.

### 3270 Twister Grips

## Heavy-duty Non-slip Fabric Rolls

As above, but extra thick, durable non-slip fabric, providing added protection against chipping or scratching. Ideal for the bottom of boat lockers and under gas bottles. Black only. Roll size 46x183cm.

### 3250 Heavy-duty Non-slip Fabric Rolls

# Non-slip Matting

## Non-slip Cover Protects Your Charts

A clear cover will protect your valuable charts from accidental spills whilst in use. This one should prevent the spills occurring in the first place as it's non-slip, so it will prevent your phone, GPS etc going astray as well as your coffee. 2mm high-gloss PVC. Measures 1x1m, easily cut to size.

**3254 PVC Chart Cover**

## Anti-slip Tray

A step up from using our non-slip matting to make your drinks tray safer is to use this one, which has a textured non-slip surface built-in. Measures 41x29cm.

**3266 Antislip Tray**

## Clear PVC Placemats and Coasters

Using a food-grade clear PVC, these mats and coasters are just as good at preventing slips as our other non-slip placemats. Heat-resistant to 60°C and waterproof, they can protect delicate surfaces. Placemats are 30x20cm, coasters are 9cm diameter.

**3273 Clear Placemat/Coaster Set.** 6 of each.

**3275 Clear Placemat Singles**

**3276 Clear Coaster Singles**

## Mould-resistant Mats

### Make Your Shower Safer

A cushioned non-slip mat is essential in a bath or shower to ensure a safe footing, but they often attract unsightly mildew. These ones are impregnated throughout (not just coated) with a silver-based technology which inhibits the growth of bacteria and mould, yet is completely safe for humans. Free draining and machine washable, and independently tested to the new Slip Resistant standard BS8445:2012.

**3263 Antimicrobial Bathmat.** 43x90cm.

**3264 Antimicrobial Shower Mat.** 20x20cm.

## Stow-away Silicone Trivet

When space is at a premium, every square inch counts, and with this folding silicone trivet you can safely use a table or work surface for your hot pans and it stows away easily afterwards. Silicone is also naturally non-slip – a crucial advantage on-board – and easily washable. Measures just 22cm (closed).

## Super Stainless - Making Stainless Look Super!

Stainless steel cleaner and protector, is specifically formulated to quickly and easily neutralise and remove those ugly rust and corrosion stains from all your stainless steel fittings such as rigging screws, bow and stern rails, grab rails, bow rollers, guard wires and terminals, and stainless steel railings, and protecting them from further attack from the elements on board your boat. Being of liquid gel consistency it penetrates where conventional paste cleaners cannot, getting into crevices ensuring your fittings are fully cleaned and protected against further rusting and corrosion which can shorten the lifespan of many fittings and cause premature failure. Simply paint the gel formula on to the rusty stainless fitting, wait 30 minutes and rinse with fresh water. It really is that simple! No rubbing or scrubbing. Environmentally responsible and a biodegradable product.

**2449 Super Stainless.** 1-litre.

**2452 Super Stainless.** 500ml.

## Takes the GRUNT! Out of Cleaning your Boat!

Grunt boat cleaner, does exactly that – it takes the GRUNT! out of cleaning your boat. Ugly yellow/brown waterline stains, rust stains from fittings, bird lime and limescale stains, exhaust stains - sound familiar? Grunt boat cleaner is specifically designed to make cleaning these hard-to-shift nasty stains from your boat an easy task, so easy in fact you won't believe it! Grunt boat cleaner penetrates into the gelcoat pores and using a mild chemical reaction gently neutralises and absorbs the staining without affecting the gelcoat in any way. The stain can then be simply washed away with a sponge and water. To use Grunt boat cleaner simply apply to the stained area – wait 30 minutes or so while Grunt does the work, and rinse off, it really is that simple! Grunt boat cleaner is formulated as a liquid gel in order to adhere to vertical and overhead surfaces. Whilst primarily designed for use on fibreglass boats, Grunt boat cleaner also works brilliantly on most two-part marine paint systems and yacht enamels typically used on steel or timber boats. Contains NO harsh oxalic, muratic or hydrochloric acids.

## Oscar Borgström Range

Designed for us by Swedish artist Oscar Borgström – well-known in his home country for his lighthouse-themed art – this exclusive range of souvenirs depict some of the British Isles' best-loved lighthouses. We've roughly grouped them in to East Coast and South Coast ranges, to suit many popular tourist destinations, but all are eye-catching and just as appealing to those away from coastal locations. Other lighthouses can be commissioned on some products subject to order quantity – please call us on +44 (0)1932 244396 for details.

We use the same high standard of embroidery to apply your boat name, company name, or advertising slogan to our yachting caps and knitted beanies. And it's all done in-house for fast turnaround, and low minimum quantities. Call us today on +44 (0)1932 244396 to find out what we can do for you.

## Senior Ranks Cap with Gold Embroidery

Made to the same spec as our Yachting caps (opposite), but with a navy-coloured brim embroidered with gold oak leaves and acorns. This is a symbol of high rank in the American navy, probably derived from the fact that the best ships were traditionally made from oak. One size fits all.

6266 Oakleaf Yachting Cap

## Captain's White Cap

For the fair-weather boating man, there is a crisp white cotton cap with a shiny peak, yellow braiding, embroidered badge. Sizes 56-60cm.

6252 Captain's white cap

## Woollen Breton-style Caps

As worn by that famous Yellow Submariner, John Lennon, in the Sixties, the rugged Breton-style fisherman's cap is still in fashion. 100% wool with a quilted interior for warmth.

6254 Breton cap, navy. Sizes 56-60cm.

6255 Breton cap, black. Sizes 56-60cm.

## Crew Caps

When specifying our crew caps, we chose the “top-spec” options all the way. So the bulk of the cap is made from strong, 100% cotton twill material, with a sweat-resistant hem and reinforcing sewn around the inside. The brims are plastic (not cardboard), and covered in soft fawn-coloured suedette on top with navy cotton twill beneath (to reduce glare on the eyes). The size-adjusting strap has a metal buckle, and metal sleeve for tucking away the end neatly. Each is heavily embroidered with a crew position in cotton thread. The quality is excellent as is the price. One size fits all. Max 61cm, min 54cm.

## Head Protection, Designed for Sailors

There are numerous safety hazards on board - being hit by the boom for example - yet sailors are often reluctant to wear safety helmets as they can be heavy, uncomfortable, and unattractive. These yachting caps incorporate a hard injection-moulded shell for protection and foam padding for comfort, and they meet the requirements of EU Standard Specification EN812 (similar to building site bump caps).

### Narrow-peak SafaSail Cap

A narrow peak version for those at the helm, to enable them to look up and see the wind indicator at the top of the mast.

### 5167 SafaSail Yachting Cap, navy/red

### Full-peak SafaSail Cap

Incorporates a large peak to protect against bright sunshine, and a chinstrap to prevent cap being blown away in the wind.

## Pure British Wool Guernsey Sweaters

The traditional Guernsey sweater has changed little in more than 400 years - offering excellent insulation, as well as wind and water resistance, and tremendous durability. Ours are also designed and crafted to last, made from 100% British wool using traditional textured patterns. They are comfortable and practical to wear allowing for good ease of movement, with side vents and finished with a smart crew neck. Sizes (to fit chest): S(40"/100cm), M(42"/105cm), L(44"/110cm), XL(46"/115cm), XXL(48-50"/120-125cm).

## Submariner Sweaters

Admiralty-issue to the Royal Navy in both world wars, thick wool sweaters like these are every bit as suitable for today's sailors and those who like to keep the waves beneath them. They combine the warmth, comfort and rugged durability of pure Merino wool, whilst the neck and shoulder seams are interlinked for strength. Sizes, relating to chest size, give a loose (but not baggy) fit. S(40"/100cm), M(42"/105cm), L(44"/110cm), XL(46"/115cm), XXL(48-50"/120-125cm).

## Dexshell Waterproof Socks, Gloves & Hats

High-tech waterproof, windproof and breathable accessories that really do work, and do so equally well sailing in the Solent, or on rainy days on the High Street! Ideal for all outdoor activities including sailing, cycling, canoeing, fishing, hunting, walking, riding, running, basically anything where you want to keep hands, feet and head warm and dry.

### How do they work?

DexShell products use a unique seamless 3-layer fabric to keep you warm and dry.

#### Durable Outer Layer:

Quick-drying, abrasion-resistant stretch fit yarn.

#### Middle Porelle® Layer:

A waterproof and breathable membrane which allows perspiration to escape whilst blocking water and wind from entering.

**Breathable Inner Layer:** Actively wicks moisture away from the skin for comfort and warmth.

### DexShell Waterproof Socks – Two Lengths

Close-fitting and waterproof all the way up. The tops also incorporate DexShell's patented in-cuff seal system which significantly reduces the ability of splashed water to seep into the top. The fabric has been designed to stretch both lengthways as well as widthways for a supremely comfortable fit. The inner layer is 40% Merino wool for warmth.

**WATER PROOF**

**6353 Overcalf waterproof sock.** Reaching over the calf to just below the knee, perfect for wearing with taller boots. Sizes: S, M, L, XL.

**6352 Mid-calf waterproof sock.** Sizes S, M, L, XL.
